The time period for reply, if any, is set in the attached communication.

## **DETAILED ACTION**

### ***Election/Restrictions***

Claim 7-11 are drawn to claims in which read similar to claims not elected by the applicant in the reply dated 4/30/07. Restriction was insisted upon because the method claims required the club head to be made via blow molding in which the process is inherently linked to forming fiber reinforced resin. The invention elected did not require the use of fiber reinforced resin. Based on the election made by the applicant, fiber-reinforced resin cannot be added to the presently pending claims. Because there are no claims to be examined, amendment is considered non-responsive. Applicant is given one month to amend the claims.
